MAGIC SOUND & VISION

EXPERIENCE THE ENCHANTMENT OF MAGIC FLOAT IN HARMONY OF MIND AND BODY

The MAGIC Colour & Light System makes bathing an experience for all the senses. While the enjoyably warm water conveys warmth and safety and bathing oils spread their fragrance, visual and acoustic stimuli complement the absolute feeling of well-being.

LEDs fitted into the bath itself make the water turn into one of five preset colours or radiate in gentle transitions.

The sounds supplied via the USB connector enhance the bathing experience to optimum effect. Integrated high-performance loudspeakers ensure that the music is really tangible.
